

How to install Supportland-Widget?

1. Active Supportland widget plug-in

- Log in as Admin, in Dashboard, expand 'Plugins' and click 'Installed plugins'
- Find 'Supportland Widget' in the plugin list and click 'Activate'

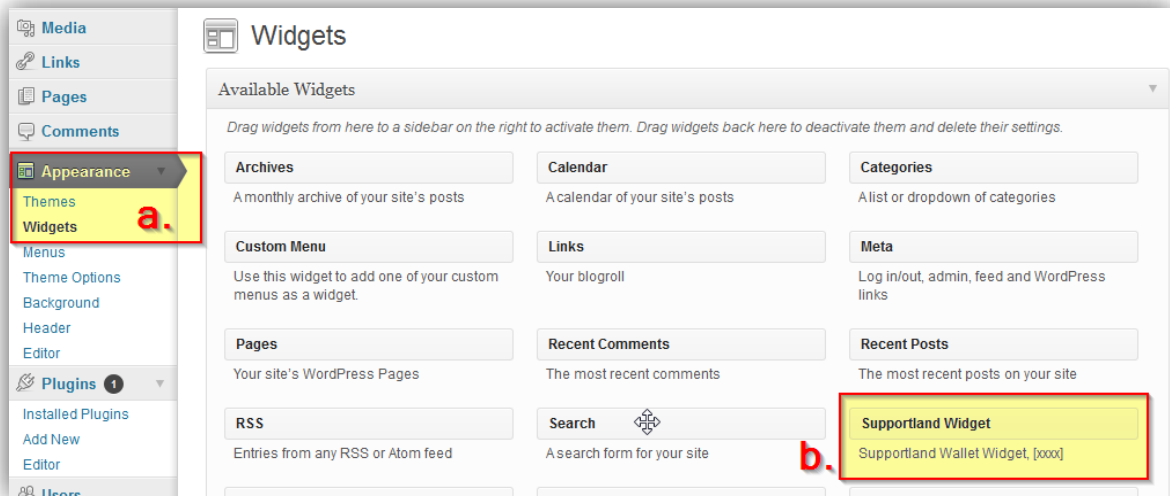

- After activating the plugin, the title should be bold

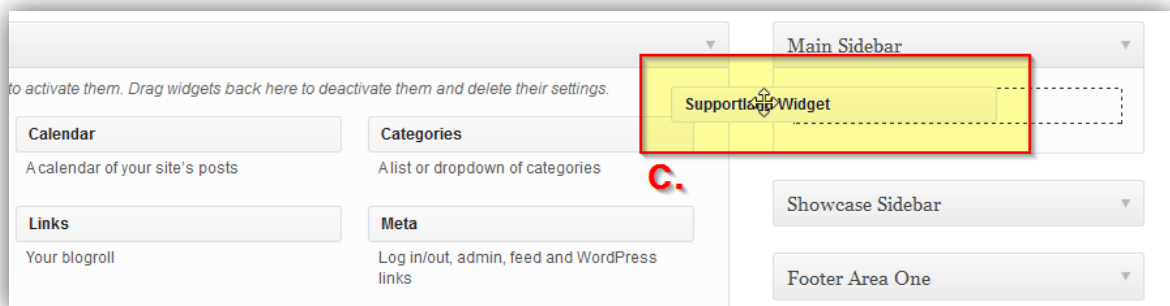

2. Activate the widget

- a. Go to Appearance → Widgets
- b. Locate the Supportland widget

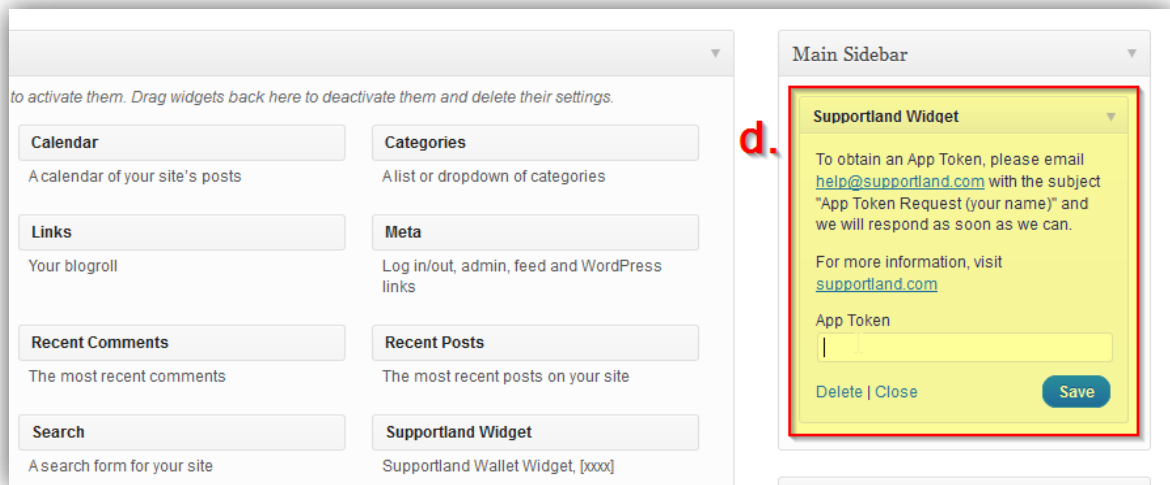

- c. Drag it to the sidebar where you wish it to appear.

NOTE: depend on the theme your site is using, sidebar area options/locations might be various.

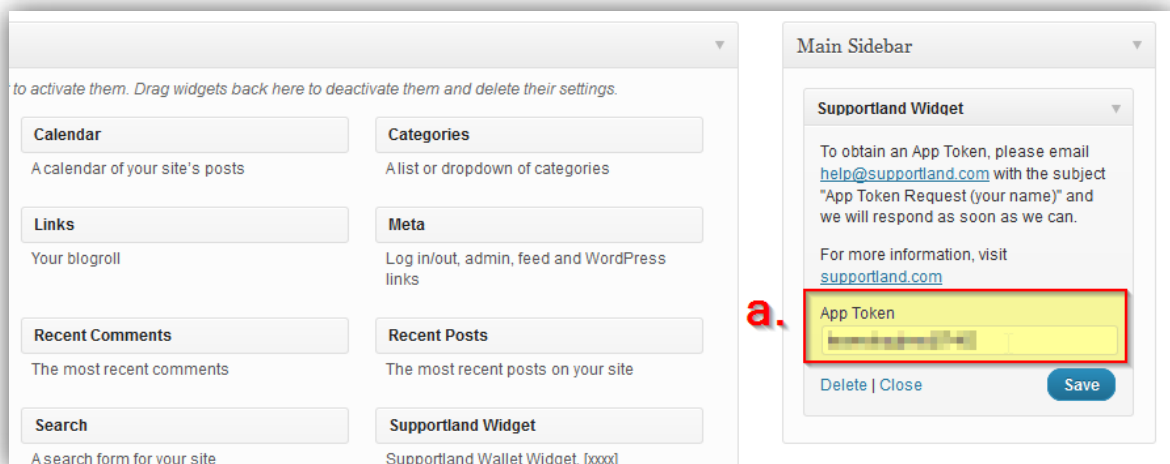

- d. Once the widget is in place, it will look like this:

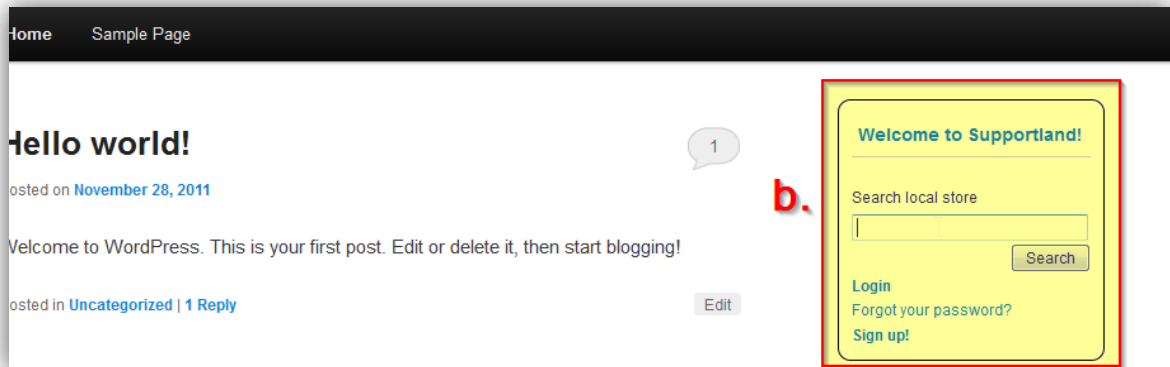

3. Enter App token

- a. Request an app token from Supportland site and put it to the widget.
Hit 'Save'.

b. You're good to go!

c. NOTE: if you don't put the app token in, the widget won't work.
